

# EV Reflectance – Collection 5

## Terra Band 8

## Terra Band 1

Oscillation at large AOI due to polarization effect

~3% drift in Terra bands 1, 2, and 4

Much larger drift seen in Terra bands 3 (~5%), 8 (10~15%), and 9 (~8%).

Further details available in the MCST presentation during the Calibration breakout session of the May 2011 MODIS Science Team Meeting ([http://modis.gsfc.gov/sci\\_team/meetings/201105/](http://modis.gsfc.gov/sci_team/meetings/201105/))
